

# CPR Recertification Requirements

## 2010 MCFRS Annual Recerts

### **STUDENT REQUIREMENTS:**

CPR and AED recertification for 2010 must be completed with an American Heart Association CPR Instructor. All personnel must successfully complete all portions of the skills test and the written exam with a minimum passing score of 84%.

### **INSTRUCTOR REQUIREMENTS:**

All students should view the Healthcare Provider Renewal Video. All stations should have this DVD from the previous several year renewals.

-or-

Students can request to “TEST OUT.” But, any student that fails the “TEST OUT,” will then be required to complete the entire Renewal Video, all the skills required and the written examination.

**All students must** successfully pass a skills exam for the following skills:

- 1 Rescuer Adult/Child CPR
- 2 Rescuer Adult/Child CPR and AED
- 1 Rescuer Infant CPR
- 2 rescuer Infant CPR

**All Students must** individually pass the BLS Healthcare Provider CPR written examination. This test is to be a closed book, individual exam. The minimum passing score is 84%. You will use the version “B” exam as the initial exam, and the version “A” will be for the first required retest.

**Instructors must** submit the appropriate course roster and submit electronically to CPR Montgomery. Instructors must then document on the MCFRS 2010 Recert Cards the successful completion of CPR and AED.

Any student requesting an AHA HCP Course Certification card: Instructors must make the request to the TC Coordinator. This request must accompany the course roster. A fee of \$2.00 per card must be submitted at the time of the request. The TC Coordinator will forward the card to the requesting instructor ONLY. It will be the responsibility of the instructor to issue the card to the requesting student.
